

Introduction

► Feature

Lifting capacity: 500 kg / 1,102 lb wire rope top layer

Lifting height: 12 m

Lifting speed: 3 M/min

Motor output: 300 W x 50 A at DC12V

Brake: Mechanical ratchet pawl provides instant and failsafe brake

Control: Handheld pendant switch powers the hoist

► Unpacking

- Hoist assembly..... 1 pc
- Control ass'y 1 pc
- Pendant switch PB-306 w/cord 0.75 mm x 3C x 4.4 m.....1 pc
- Wire rope 6.35 mm x 12 m.....1 pc
- Weight hook CHW-0005..... 1 pc

► Read this manual carefully

You should carefully read and understand this manual before operating it. Careless hoist operation may result in personal injury hazards or property damage.

► Information requesting or parts ordering

Please specify the following information:

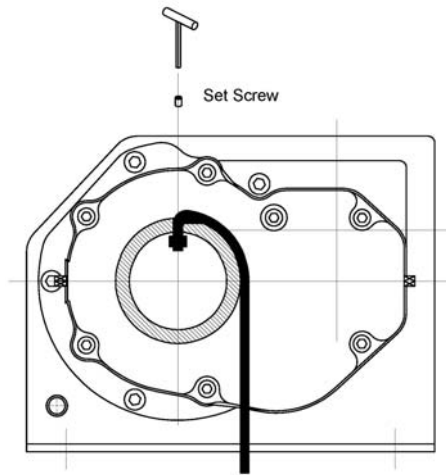

- Hoist PN
- Serial number
- Quantity for each part
- Part description
- Replacement part number

Installation

Before using the hoist, make sure all electrical components have no corrosion or damaged; the environment should be clear and dry.

Wire Rope Replacement

- Feed the end of the wire rope into hole on the drum and lock it with a set screw securely.
- Make sure the first layer of wire rope is tight and maintain a freeboard at least 1.5 x rope diameter.
- Wire rope shall be wound in an under-wound orientation only.
- To compensate for uneven spooling and the decrease in line lifting capacity as the drum fills up, use as short a wire rope as practical.

Wiring Diagram

Attach the black lead firmly to the negative (-) battery terminal and white lead to the positive (+) battery terminal. The voltage drop for the hoist motor must not exceed 10% of the nominal voltage of 12V DC.

- Recommended battery: 650 CCA minimum for hoisting

Performance Data

Layer	Lifting Load kg	Line Speed mpm
1 st	619	2.4
2 nd	553	2.7
3 rd	500	3.0
	At no load	5.0

Warning

- The operator shall always work in compliance with the operating instructions.
- Overload shall be forbidden and overload protection shall be required.
- Ban on transporting persons and excessive inching shall be avoided.
- Don't try to move obstructed loads and side-pull of load is not allowed
- The rope winding on the drum shall remain 5 wraps from the drum.

Parts List
